YouTube is now banning videos where YouTubers talk about Patreon. This guy's entire channel was deleted.

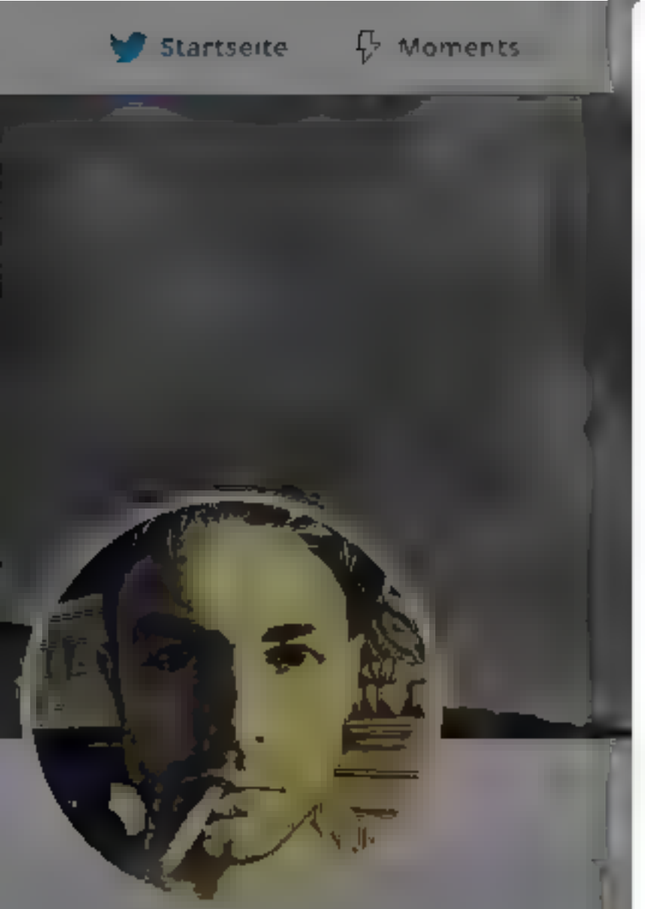
Hi Squatting Slav TV

As you may know, our Community Guidelines describe which content we allow – and don't allow – on YouTube. Your video "Squatting Slav TV on Patreon/Other Links in Description," was flagged for review. Upon review, we've determined that it violates our guidelines. We've removed it from YouTube and assigned a Community Guidelines strike to your account.

Video content restrictions

We are constantly working to keep YouTube free of spam. It's not okay to post large amounts of untargeted, unwanted or repetitive videos. In addition, if the main purpose of your content is to drive people off of YouTube and onto another site, it will likely violate our spam policies. Learn more here.

The impact of strikes



This is the third Community Guidelines strike your account has received within three months. Because of that, your account has now been terminated, and you won't be able to access or create any other YouTube accounts.

For more information about account terminations, please visit our Help Center. If you feel that your account was suspended in error, you may appeal the suspension. You will be eligible for filing an appeal [illegible]. Please take a few minutes to fill out our [illegible].

Sincerely,
The YouTube Team

Orwell literally warned against re-writing history by removing/altering statues, you utter prick.

George Orwell > Quotes > Quotable Quote

"Every record has been destroyed or falsified, every book rewritten, every picture has been repainted, every statue and street building has been renamed, every date has been altered. And the process is continuing day by day and minute by minute. History has stopped. Nothing exists except an endless present in which the Party is always right."

Tower Hamlets. Of course it's Tower Hamlets.

Christian child forced into Muslim foster care

Concern for girl who 'had cross removed and was encouraged to learn Arabic'

Andrew Norfolk
Chief Investigative Reporter

A white Christian child was taken from her family and forced to live with a Muslim-identity foster carer in a Jewish suburb. She was allegedly encouraged to learn Arabic.

The five-year-old girl, a native English speaker, has spent the past six months in the care of two Muslim households in London. The foster placements were made against the wishes of the girl's family by the scandal-ridden borough of Tower Hamlets.

In confidential local authority reports seen by The Times, a social services supervisor describes the child sobbing and begging not to be returned to the foster carer's home because "they don't speak English".

The report states that the supervisor heard the girl, who at times was "very distressed", claiming that the foster carer "would let her go to school without a Christian cross and also suggested that she should learn Arabic". It understands that the child told her mother that when she was given her favourite Italian food to take home the foster carer would not allow her to eat it because the carbonara meat contained bacon.

More recently, the girl is said to have told her mother that "Christmas and Easter are stupid" and that "European women go to hell and die there".

In any decision regarding a foster placement, local authorities are required to give due consideration to the child's religious persuasion, racial origin and cultural and linguistic background.

Tower Hamlets refused to respond on requests to explain why it had chosen a place with an English-speaking foster carer who lives in Alderman's Hill, north London, a Jewish area, despite the girl's family being unable to understand the language spoken by the family.

The five-year-old girl, whose identity The Times is protecting, with her present foster carer. Her mother is said to be horrified by the alien cultural, religious and linguistic environment in which her daughter has spent the past six months.

lived for four months, is believed to have worn a niqab outside the family home. She cared at her present foster placement wears a burka, fully concealing her face when she accompanies the child in public.

The wearing of a niqab or burka generally indicates adherence to a conservative Salafi-influenced interpretation of Islam that is often contemptuous of liberal western values.

To protect the child, The Times has chosen not to identify her or the unusual circumstances that led to her being taken into care earlier this year. The girl's mother is said to have wanted to have been identified by the alien cultural, religious and linguistic environment in which her daughter has spent the past six months.

This five-year-old white girl. She was born in this country, speaks English as her first language, loves football, holds a British passport and was christened in a church," said a friend. She already suffered the huge trauma of being forcibly separated from her family. She needs surroundings in which she'll feel secure and loved, instead she's trapped in a world where everything feels foreign and unfamiliar. That must be scary for a young child.

In some areas of the country a long-standing shortage of foster carers from ethnic minority backgrounds frequently leads non-white children being, as a result, placed with white British foster parents. It is not uncommon for this to take place.

Published fostering statistics for England show that of the 51,600 children who were in foster placements last year, 39,600 (77 per cent) were white, as were 52,500 (83 per cent) of the 62,400 approved foster carers.

The 2011 national census found that 81 per cent of England's population was white British, falling to 45 per cent in London and 31 per cent in Greater Tower Hamlets. Across the capital last year 9[illegible] of foster children and

Do the people celebrating Hurricane Irma hitting "racist" Trump's property know that those islands are mostly inhabited by black people?

We I you have those who think trump contro s the weather

[redacted]

So they say Hurricane Irma is headed for Miami. Did y'all realize 70% of Miami is Latino, Hispanic, or Cuban?? 44% of the Haitian population in the US resides in Miami. Miami is like Houston in which it is FLOURISHING economically. Coincidence? Trump wants them

I have no sympathy for any lives lost as a result of Hurricane Harvey. If Texas hadn't given us 38 red electoral votes (and by extension Trump) last year MAYBE I could give a damn but nope, I'm far too intelligent for religion but this sure counts as karma to me! "

Red pills save lives. What a great message.

> Hey Paul I just wanted to say that I was in a really low point in my life and saw your videos which helped me identify that the root of my sadness was the pursuit hedonism as pushed by the cultural Marxist mainstream media and universities (including my own). Since then I have focused heavily on studies, stop watching TV and taken up reading of Philosophy and literature (any recommendations mate?) which is strongly helping to keep me happy and feeling alive and fulfilled. I always had strong leaning towards the right and have for long to though why you say but you just say it perfectly. I hope to one day go into politics and help start a genuine libertarian movement in the UK after I work worth a few NGOs to actually help better the communities of the world rather hab virtue signal. But yeah just wanted to say thanks man and keep up the good work, and maybe one day we'll be truly victorious.

The only clear evidence of election rigging is Hillary rigging the primary to screw over Bernie Sanders.

Let that sink in.

"People chase after fantasy hate crimes while saying next to nothing about Islamist hate crimes that have killed 34 people in six months."

Brendan O'Neill
44 mins ·

There's a man on the news who was caught up in this morning's Parsons Green terror attack saying that his mate witnessed the London Bridge terror attack in June. "It feels like it's happening so often now", he says. Four terror attacks in the UK this year, scores dead, including young pop fans, Saturday-night revellers, people strolling over Westminster Bridge, but we're discouraged from talking about it. Lay a flower, "Don't look back in anger", don't make a fuss, move on. And yet sections of the media obsess over a highly questionable spike in "post-Brexit hate crimes". We are invited to panic about a hatred that is unproven while keeping quiet about a hatred that is real and deadly and "feels like it's happening so often now".

Such strange times. People chase after fantasy hate crimes while saying next to nothing about Islamist hate crimes that have killed 34 people in six months (it remains to be seen if Parsons Green was an Islamist attack). Invented hate is railed against, true hate ignored. Tragic and perverse

Strident feminists are almost always joyless cunts who are not fun to be around. This is a scientific fact. It's like gravity.

The stereotype of most feminists being fat, ugly and obnoxious is completely accurate. #TheTriggering

Hi Paul,

I'm a tech columnist for the NYT, and am writing about the strategies people use to get their content listed in search results on Google/FB/YouTube after big breaking news stories. I noticed your tweets were highly ranked in Google's search results for the Texas church shooting, and would love to speak to you about that. Is there a good time to chat?

Was in Tesco earlier.

Their entire Christmas shelf - cards, wrapping paper, confectionary - not a single mention of the word "Christmas". Not a single one.

Christmas cards are now called "charity cards".

Pathetic. Truly pathetic.

As we've seen through the past year of unsubstantiated claims, we see no facts, we have seen no evidence, we have been approached with no emails and only learned about this when contacted by the press. Even if tomorrow, an email was found, it is not a high enough bar of evidence to prove any interactions as emails can be altered and we've seen that those interested in pushing conspiracies will stop at nothing to do so. We are a family who is committed to facts, not fake evidence that surfaces every few months to fill the void and distract law enforcement and the general public from finding Seth's murderers. The services of the private investigator who spoke to press was offered to the Rich family and paid for by a third party, and contractually was barred from speaking to press or anyone outside of law enforcement or the family unless explicitly authorized by the family.

Regarding that Channel 4 "fake news" hit piece. channel4.com/news/fake-news .

Paul Joseph Watson

I was asked to be on this and it was the usual mainstream media shtick.

They were all friendly and nice and 'just wanted to get my perspective'. Oh no, it's not a hit piece, nooooo It's going to be fair

Watch it. Dark foreboding b-roll, ominous music, creepy racists obsessed with IQ weirdos in masks, ex-BNP member

They then have a whole week of shows on Channel 4 about "fake news" (without mentioning its impact was completely debunked by a Stanford University study).

So basically, if you distrust the mainstream media, you're a mask wearing spotty, racist BNP-sympathizing alt-right weirdo on the fringes of society

This is why I don't do mainstream media

They smile to you, they act all friendly, then when it comes down to it, it's always a hit piece. Always

Fuck the mainstream media We don't need them

The YouTube sensation

He calls himself a member of the "New Right." He thinks multiculturalism "doesn't work" and that Islam is bad. He is pro-Brexit, anti-feminism, and anti "Black Lives Matter." He despises modern art. He's in his mid-30s, articulate and charismatic, and his YouTube channel has more than 900,000 subscribers. Watson has claimed that he is "red-pilling a generation" he's arguably the contemporary right's biggest celebrity.

Do we have officers or lacky's in this country?

Jesus

[illegible]

As we've seen through the past year of unsubstantiated claims, we see no facts, we have seen no evidence, we have been approached with no emails and only learned about this when contacted by the press. Even if tomorrow, an email was found, it is not a high enough bar of evidence to prove any interactions as emails can be altered and we've seen that those interested in pushing conspiracies will stop at nothing to do so. We are a family who is committed to facts, not fake evidence that surfaces every few months to fill the void and distract law enforcement and the general public from finding Seth's murderers. The services of the private investigator who spoke to press was offered to the Rich family and paid for by a third party, and contractually was barred from speaking to press or anyone outside of law enforcement or the family unless explicitly authorized by the family.

Will Manchester listen to Morrissey? #S lenceForManchester

Morrissey Official
3 mins

Celebrating my birthday n Manchester as news of the Manchester Arena bomb broke. The anger is monumental.
For what reason wi th s ever stop?

Theresa May says such attacks "wi not break Js", but her own life is lived n a bullet-proof bubble, and she evidently does not need to identify any young people today n Manchester morgues. Also, "will not break Js" means that the tragedy wi not break her, or her policies on mm gration. The young people of Manchester are already broken - thanks all the same, Theresa. Sad q Khan says "London is united with Manchester", but he does not condemn Islam c State - who have claimed responsibility for the bomb. The Queen receives absurd praise for her strong words against the attack, yet she does not cancel today s garden party at Buckingham Palace - for which no criticism is allowed n the Britain of free press. Manchester mayor Andy Burnham says the attack is the work of an "extremist". An extreme what? An extreme rabbit?
In modern Britain everyone seems petrified to officially say what we all say in private. Politic ans tell us they are unafraid, but they are never the victims. How easy to be unafraid when one s protected from the line of fire. The people have no such protections.
